Procedure –Long Stay Visa and Work Permit

1. Purpose

This document describes the process for long stay visas (“LSV”) and work permits (“WP”) for non-French nationals mobilizing to the Koniambo Project in New-Caledonia.

To facilitate and expedite processing of applications:

- All steps must be followed rigorously,
- All documents must follow the designated templates,
- Information will be compiled in a database to allow proper reporting to both the Authorities and the Project Management Team.

2. Scope

This process will be used where a Long Stay Visa and Work Permit are required for non-French nationals mobilizing to the project for a period greater than 90 days in a 6 month period. For taxation purposes the applicant will be considered a resident of New Caledonia. The visa is valid for 12 months and can be renewed.

The granting of a long stay visa and work permit is under the joint responsibility of the French State and the New Caledonian Government. The processing of applications combines requirements from both the French and the New-Caledonian authorities. The information in this procedure should be considered “generic”. Specifics for each consulate can be obtained from the VCC. Processing times will vary depending on the source country.

Non compliance with the process will delay filing and lodging of the visa and work permit applications.

3. Process Owner

The Visa Coordination Center (VCC) is the owner of this procedure and is responsible for monitoring its implementation, its continued effectiveness and updating as required. Any questions concerning this procedure should be addressed to the VCC.
